

LUSSANO
INTERIOR ATELIER

Some materials age.
Others settle into permanence.

LUSSANO brings together a considered selection of porcelain from Italy and Spain — surfaces where format, texture and mineral tone resolve as a single intention.

We do not carry everything. We carry what holds up to scrutiny, to light, to time.

For the residence still worth photographing thirty years from now.
For the development that competes on quality, not on price.

LUSSANO curates the standard. The rest follows.

Marble embodies timeless elegance shaped by nature over millions of years. Rich veining and refined textures create a sense of depth, luxury, and quiet sophistication across every surface.

Marble brings distinctive character, graceful movement, and an enduring architectural presence that enhances both contemporary and classic interiors.

Slabs presents large-format porcelain surfaces of up to 160 × 320 cm, where scale itself becomes the design statement. Veining flows uninterrupted across walls, worktops, and islands, creating monolithic planes with a sense of quiet grandeur.

As the foundation of a considered interior, Slabs brings seamless continuity, architectural presence, and a refined sense of permanence to both residential and commercial spaces.

A selection, *deliberately made.*

Not for the sake of variety, but for the sake of what deserves to remain.

Surfaces chosen for their materiality, proportion and character.

Selected in Italy and Spain. Considered for architecture.

Made to endure beyond the moment.
